PROJECT NAME
Auto Ticket Classification Using Flow Design

1. PURPOSE OF DOCUMENT

The purpose of this document is to briefly explain the test coverage, execution metrics, and open/resolved issues for the **Auto Ticket Classification Using Flow Design** project at the time of release to User Acceptance Testing (UAT). It validates the system's ability to seamlessly ingest incoming tickets, process NLP sentiment and keyword categorization, execute dynamic decision flows, and accurately route tickets to appropriate support teams.

TOTAL TEST CASES
76

PASS RATE
100%

TOTAL DEFECT VOLUME
77

2. DEFECT ANALYSIS

This report shows the number of resolved or closed bugs at each severity level, classified by their resolution status during the flow automation test cycles.

Resolution	Severity 1	Severity 2	Severity 3	Severity 4	Subtotal
By Design	4	10	2	3	20
Duplicate	0	3	0	1	4
External	0	3	2	1	6
Fixed	4	2	11	20	37
Not Reproduced	0	0	1	0	1
Skipped	0	0	1	1	2
Won't Fix	0	5	2	1	8
Totals	24	14	26	13	77

3. TEST CASE ANALYSIS

This section details the total test suite execution across all key components of the Auto Ticket Classification system, including ticket ingestion flow design, client application portal, security controls, and exception handling modules.

Section / Module	Total Cases	Not Tested	Fail	Pass	Status
Flow Ingestion & Routing Engine	7	0	0	7	Passed
Client Application & Agent Portal	51	0	0	51	Passed
Security & Role Access Control	2	0	0	2	Passed
Outsource / Third-Party Ticket Sync	3	0	0	3	Passed
Exception Handling & Fallback Flows	9	0	0	9	Passed
Final Classification Output & Triggering	4	0	0	4	Passed
Version Control & Flow Auditing	2	0	0	2	Passed
Total Summary	78	0	0	78	100% Pass

4. UAT SIGN-OFF & CONCLUSION

All high-priority defect items have been resolved and verified. The **Auto Ticket Classification Using Flow Design** application has successfully satisfied all core functional requirements, system performance parameters, and ticket routing accuracy goals. The system is recommended for immediate production deployment.
